Steam literally stole money from me by selling a game with a faulty activation key. I want my money back, or I want an activation code that works.. There are thousands of free games better than this. Such a disaster.. Nice adventure with beautiful graphics, it's a tad short though and not all the puzzles are initially that well explained on what is expected of you to do (minor detail, the help system helps here, but still, would be nice if I did not have to use it in the first place :)).

If you like puzzlers and love beautiful graphics this is a game that wont disapoint. The story line is kinda thin and not that intriguing but the game plays well and looks great.

Still wished it was a tad longer..... I like this game. However, I do find that I can't see far enough when attacking. I crafted a laser with range 120. When I try to keep far away and shot enemy station, I found that it is almost outside my screen. Please allow us to zoom out further. Otherwise, all long range weapons will be impractical to use.. Nearly missed the extra characters in this game!

Very silly set of characters to play, from the frivolous to the detective. Overlapping and fascinating!

Just did the final two episodes... I want to know what happens next!!!. Fun game that looks like older shooter games. It is not for every one but I like it. You can sprint all time and have weapons no need to unlock them. Good for nostalgia.. I got dead, I guess? It was fun! Explore the battlefield after the fights for them sweet pearls and rubies.. Feels a lot like quake. Played it for a few minutes good schtuff. Needs rocket jumping

02. Seems that there is not much to say about the game, catching eggs in different environments and conditions. But powerups are making it interesting. Once it gets fast, it's hysterical to watch others playing :D. Hugs are good. Um Kay!. The Worst DLC I have ever seen!. Very nice game, also one of Veibyn's great games. I've played it some hours, and it is enjoyable also a little frustrating some times. As a game should be, also there is some dead ends. So you can't just rush thru the game.

I like this game.. Really fun turnbased strategy RPG, but if your going to get into the game you have to max one character first to 50lv and then choose your team size and level despensement to each class.. Well, the only visial novel I could bring myself to finish. Guess visual novels aren't really my thing. Short and sweet. I liked it a lot, the journey thru the novel. I would have liked a slightly longer ending scene. I found the fantasy character's curse words jarring. I expected fantasy curse words!. What is this? What did I just play? H-How can such a piece of♥♥♥♥♥exist in my library? Surely this must have come in a bundle, but even then..... I gave money to this? Well anyway, here we go. You play as what appears to be a stereotype of a young black male, full of ego and confidence, and an old white soldier who tries to keep things professional. The two character's cultures clash as the black guy repeatedly calls the white guy hick, who, in return always shows dissapointment in his partner's actions. Okay so I played the first level and half of the second one, the game was going nowhere quick and with only 4 weapons to play around with, I was done. Uninteresting, uninspired. I'm sure in the final two levels, the two characters will have formed a strong bond because of the♥♥♥♥♥they've seen. Hell may have broke Luce Tom Waitts, but not these guys. In the end I'm sure when the black guy calls the white guy hick, it will be out of respect and he'll get respect back. Seriously, other than stupid writing there's nothing to talk about. This game sucks, go, get out of here. Play Red Orchestra, and if you don't like that check out Far Cry 3.. A DLC that accelerates very quickly. Unfortunately, it only has one livery which is the Southeastern yellow/grey livery. If you get the Armstrong Powerhouse sound pack, you can get the Southeastern blue stripe livery and it likely sounds like a Jubilee Line 1996 Stock but it dosen't have the V0 and V1 sounds. Even DPSimulation has the Class 465 Southeastern blue stripe livery (which requires again the AP Sound Pack above which I don't own). Instead, I will have to use the 466s as a subsitute.
